EDUCATION

Northeastern University, D'Amore-McKim School of Business

Boston, MA

Candidate for Bachelor of Science in Business Administration and Data Science

Expected Dec 2028

- **Concentration:** Finance GPA: 3.68
- **Coursework:** Financial Management, Investments, Financial Accounting, Advanced Programming with Data

EXPERIENCE

ColorInfoTech Co., Ltd.

Suwon, South Korea

Business Support Intern

May 2026 – Aug 2026

- Maintained customer account and service data for 197 clients in the internal service system of a multifunction printer leasing company, enabling billing, collections, engineer dispatch, and client inquiry handling.
- Prepared and issued usage-based invoices for each client account, verifying charges against its contract terms.
- Reconciled billed amounts against incoming payments each monthly, quarterly, or semiannual cycle, escalating receivables past standard collection terms to the Business Support Manager for client follow-up and collection.
- Prioritized ad-hoc dispatch for 3 field engineers during call surges based on fault severity, urgency, travel routes, revenue impact, and spare-parts stock, publishing assignments in the service system.

Coupang Fulfillment Service Ltd.

Hwaseong, South Korea

5S Associate, Outbound Operations

Dec 2024 – Jul 2025

- Performed daily 5S and safety inspections across a 1.4M-sq-ft fulfillment center, installing and restoring visual controls, and troubleshooting and repairing equipment and machinery.
- Replaced memory-based tracking with a shared Excel inspection, repair, and inventory log to prioritize tasks.
- Drafted daily written reports on inspections and repairs for submission to the Outbound Operations Manager.

Republic of Korea Army

Yanggu, South Korea

Sergeant, 2nd Battalion, 66th Brigade, 21st Infantry Division

May 2023 – Nov 2024

- Conducted DMZ surveillance and security operations, maintaining situational awareness along the border.
- Coordinated rapid-response operations under pressure and communicated urgent updates to command.
- Led a squad of 12+ soldiers, directing daily assignments and sustaining discipline and operational readiness.

PROJECTS

Customer Billing & Usage Management Application

Suwon, South Korea

Internal project at ColorInfoTech | Python, SQLite

May 2026 – Jun 2026

- Analyzed inconsistent spreadsheets and undocumented billing practices to define the automation scope and standardize contract terms as configurable rules, establishing requirements for a new in-house billing application.
- Designed the system architecture and I/O specifications, then directed AI coding agents to build the billing application in Python and SQLite, applying test-driven development, multi-agent code review, and hands-on QA.
- Automated charge calculations and statement generation for 168 accounts and migrated per-client Excel files into a centralized database, cutting preparation time by 67% (15 to 5 minutes per account, ~20 hours/month saved).
- Collaborated with Business Support teammates to validate and refine the code against business requirements.
- Demonstrated the application to stakeholders including the company owner, and trained 2 users for handover.

Self-Directed Portfolio Management

Mar 2020 – Present

- Manage a multi-asset portfolio with a 21% annualized return over six years, combining fundamental and technical investment research (financial statements, macroeconomic data, options positioning) with risk management.
- Developed a Python data pipeline to ingest ~1,200 personal trades via a brokerage API for quantitative analysis, measuring how entry timing, holding period, and sector affect P&L, and translating findings into trading rules.
- Wrote one-page equity research pitches built on SEC filings, setting price targets with DCF and PEG valuations.

SKILLS & INTERESTS

Skills: Financial Analysis, DCF & PEG Valuation, Equity Research, SEC Filings, Data Visualization

Technicals: Python, SQL, REST APIs, Git/GitHub, Codex, Claude Code, Microsoft Excel/PowerPoint/Word

Languages: Korean (Native), English (Fluent), Japanese (Intermediate)

Interests: Traveling Abroad, Freediving, Learning Japanese
